

Additional Fundraising

Maghreb Minerals Plc ("Maghreb" or the "Company"), the AIM-quoted exploration company developing base metal and industrial mineral deposits in North Africa, announces that it has completed a placing raising approximately £242,000 at 7 pence per share (the "Placing").

The Placing follows on from the £2.6 million fundraising announced on 5 June 2007 and satisfies the extra institutional demand which could not be met at the time due to the then existing power to allot shares for cash being insufficient to allow the issue of the requisite number of shares to meet the extra demand for Maghreb shares. The proceeds of the Placing will be used for the same purposes as outlined in the announcement dated 5 June 2007.

The Placing will comprise 3,457,142 ordinary shares representing approximately 3.8 per cent. of the enlarged share capital of the Company (the "Placing Shares"). It is expected that dealings in the Placing Shares will commence at 8.00 a.m. on 20 July 2007.

The total number of ordinary shares in issue following admission of the Placing Shares will be 91,033,981.
